CHOPSTICKS

SKU: CHOPP

CHOPSTICKS

A reusable pair of branded chopsticks, designed and manufactured in the UK from 100% recycled plastic. Squared handles with a print area on each chopstick, and a tapered body with ridged tips for a secure grip on food.

› Reusable by Design

A long-lasting alternative to disposable wooden and bamboo chopsticks - used meal after meal, rather than thrown away after one.

› Two Sided Branding

Each squared handle has two flat 7 x 66mm print areas - both chopsticks printed in full colour. Branding sits right where the eye falls while eating.

› Built for Hospitality

A practical, branded choice for restaurants, noodle bars, sushi counters and takeaways. Equally suited to food festivals, events and staff canteens.

› UK-Made. Always Recycled.

Manufactured in Cornwall from 100% recycled plastic. R+ recycled biodegradable option available. Solar-powered, zero-waste production.

UK-MADE | 100% RECYCLED
